About UC360 Solutions

End-to-end healthcare project solutions.

UC360 Solutions Private Limited (CIN: U86900OD2025PTC049706) is a professionally managed healthcare solutions company dedicated to strengthening healthcare infrastructure and services across India. Founded by experienced healthcare and technology professionals, UC360 combines expertise in healthcare project management, hospital planning and architecture, GRC and NABH accreditation consulting, healthcare operations, and digital transformation. We help healthcare organizations build efficient, compliant, patient-centric, and future-ready institutions.

We partner with promoters, administrators, clinicians, governing bodies, and investors to deliver sustainable growth, operational excellence, and long-term value.

UC360 provides integrated solutions for hospitals, medical colleges, nursing institutions, diagnostic centers, clinics, and healthcare organizations. Our services cover the entire healthcare project lifecycle, from concept development and strategic planning to commissioning, operational readiness, GRC and NABH accreditation, workforce deployment, and ongoing institutional support. This enables us to offer a comprehensive, under-one-roof solution for healthcare growth, quality improvement, and operational excellence.

Our multidisciplinary team specializes in healthcare planning, hospital architecture coordination, project management, regulatory compliance, quality and accreditation, workforce augmentation, clinical operations, training, and technology integration. Guided by a commitment to quality, innovation, and continuous improvement, UC360 partners with healthcare institutions to achieve operational excellence, enhance patient experiences, and deliver superior healthcare outcomes.

Mission

To provide comprehensive healthcare consulting, project management, accreditation, workforce, and digital solutions that strengthen healthcare institutions and improve patient care.

Vision

To shape the future of healthcare by creating world-class, patient-centric, and technology-enabled healthcare ecosystems that set new standards of excellence and sustainability.

Hospital and Healthcare Project Management Solutions

From concept to commissioning.

Services Covered
